Portfolio Website

Jaipur, India

## Profile

A 20-year-old Computer Science student with a passion to explore and work in the domain of computer software. Dedicated and fast learner with a quest for new opportunities to incorporate the knowledge I gained from academic courses and self-study into real-time professional space. Able to adapt to any situation and a proven potential to grow self and others.

## Skills

- Java
- C++
- HTML & CSS
- ReactJS
- Node.js
- Express.js
- Python

## Interests

- Web Development
- Data Structures & Algorithms
- Open Source

## Education

Bachelors in Technology  
Computer Science and  
Engineering  
JECRC University  
2020-2024

## Relevant Projects

### Expense Tracker

Made expense tracker using ReactJS. It tracks the daily expenses of the user. A User interface allows the user to add a specific expense name and the money spent. This is added into the expense list.

Technology applied: React JS, Reusable components , Hooks: use State, CSS

- Tracked expenses
- Recorded expenses
- Monitored expenses
- Checked expenses

### Starbucks Clone

Built landing page clone.

Styled all elements with CSS to increase visuals

- Created a clone of the Starbucks website
- Used HTML, CSS, and Bootstrap to create a responsive website
- Implemented a smooth-scrolling navigation bar
- Included an image carousel on the home page

## Work Experience

Techfest Campus Ambassador, IIT Bombay Sept 2021 - Dec 2021

Acted as a contact point between the organizing team, college students, and the authorities.

- Managed and conducted seminars for over 150+ students
- Promoted events on social media and user engagement
- Assisted with event registrations
